## February 2022

The U.S. real estate market remains hot ahead of the spring selling season, with existing home sales up 6.7% as of last measure, according to the National Association of REALTORS®. Experts attribute the growth in sales to an uptick in mortgage interest rates, as buyers rushed to lock down their home purchases before rates move higher. Mortgage rates have increased almost a full percentage point since December, with the average 30-year fixed-rate mortgage briefly exceeding 4% in February, the highest level since May 2019.

New Listings decreased 5.8 percent for Single Family and 28.2 percent for Townhouse/Condo. Pending Sales decreased 1.6 percent for Single Family and 15.9 percent for Townhouse/Condo. Inventory increased 5.8 percent for Single Family but decreased 26.9 percent for Townhouse/Condo.

Median Sales Price increased 20.5 percent to \$337,351 for Single Family and 11.8 percent to \$215,000 for Townhouse/Condo. Days on Market decreased 3.6 percent for Single Family but increased 33.3 percent for Townhouse/Condo. Months Supply of Inventory remained flat for Single Family but decreased 27.3 percent for Townhouse/Condo properties.

Inventory was at an all-time low of 860,000 as February began, down 17% from a year ago and equivalent to 1.6 months supply. According to Lawrence Yun, Chief Economist at the National Association of REALTORS®, much of the current housing supply is concentrated at the upper end of the market, where inventory is increasing, while homes priced at the lower end of the market are quickly disappearing, leaving many first-time buyers behind. The shortage of homes is boosting demand even further, and with bidding wars common in many markets, it's no surprise sales prices continue to soar.
